SKILLS:

Programming Languages: Java, Python

Frontend: HTML, CSS, JavaScript (ES6), React Js, Tailwind CSS

Backend: Spring, Spring Boot, JDBC, JSP/Servlets, REST API

Databases: MySQL, Oracle

Core subjects: OOPS, Computer Networks, DBMS, DSA

PROJECTS :

1. Chit fund Management System

- I developed a comprehensive Chit Fund Management System using HTML, CSS, JavaScript, and Node.js/Flask. This system is designed to streamline the management of members, auctions, and payments efficiently.
- It features modules for data storage in a database and allows users to access the application in real-time with secure authentication.

2. Ransomware Attack Detection in Smart Cities using Deep Learning

- Developed a deep learning-based ransomware detection system for smart city environments to identify malicious activities in real time. Designed and implemented CNN and RNN models to analyse network traffic and system behaviour for accurate threat detection.
- Improved cybersecurity by enabling early detection of ransomware attacks with high classification accuracy. Built the solution using modern deep learning frameworks and data visualization tools.python 3.0 version.

INTERNSHIP :

1.CodeTech IT Solution

30th Aug 2025 – 30th Sep 2025

Full Stack Development-Intern

Remote

I gained hands-on experience as a full stack developer intern, where I not only developed fully dynamic and responsive web applications but also worked on both the frontend and backend. My toolkit included HTML, CSS, JavaScript, React.js, Node.js, and Express.js. I implemented RESTful APIs and managed data storage using MongoDB and MySQL to ensure a smooth flow of information. Additionally, I honed my skills in version control with Git and GitHub, along with debugging and deploying web applications.

EDUCATION :

Sree Sakthi Engineering College

Sep 2022 – May 2026

B.E. Computer Science and Engineering ,CGPA 8.6

ACHIVEMENTS :

- Achieved 5 star proficiency in Java on HackerRank, demonstrating strong problem-solving and object-oriented programming skills.
- Earned 3 star proficiency in Python on HackerRank

CERTIFICATIONS :

- Full Stack Web Development – [infosys], Port-folio: [Nithisha | Full Stack & Developer](#)
- UI Developer[ICT Academy] ,
- Cloud Computing with Linux[KCISL]
